I feel inducted into the StandWithUs family and am so fortunate to have gotten to know some of the most beautiful people in the world."

The StandWithUs High School Internship is a leadership program. The internship helps students in North America channel their passion for Israel into effective advocacy skills that they can use now and into the future. Throughout the yearlong internship, we prepare the teens for the challenges they may face regarding Israel and show them how to stand up for Israel on campuses. The program includes two national conferences, ongoing educational workshops, guidance and funding to run programs on high school campuses, and a network and support system for young Zionists who want to make a difference for Israel. Upon completion of the program, participants are prepared to comfortably take the reins of leadership the moment they start college.

In key cities around the USA and Canada, StandWithUs is setting up Teen Leadership Councils. As StandWithUs Teen Leadership Council participants, students will have the opportunity to further their Israel knowledge, plan innovative Israel programs with their peers, and play a vital role in ensuring that teens in their community are connected to Israel. This leadership opportunity allows them to grow their Israel knowledge and professional skills to prepare them to be leaders at their future colleges, but it is a more informal program than the internship and requires less of a time commitment. It is open to students in grades 9 to 12. For students interested in the internship, this is a great way to prepare to be a strong candidate.
